

**Stephenson County
Engineering Technician**

Stephenson County Highway Department
Engineering Technician

The Stephenson County Highway Department is accepting applications for the position of Engineering Technician.

JOB SUMMARY: The position is responsible for a variety of duties including design, construction layout and inspection, maintenance operation, utility coordination for construction and maintenance projects, surveying, bridge inspection and material testing. Serves as Resident Technician (RT) for various road and bridge, drainage and similar projects. Accountable for Stephenson County NBIS inspections, preparing permits pertaining to the Stephenson County highway system, and the Stephenson County and Township MFT Program. Provides technical guidance to in-house staff pertaining to engineering matters during design and construction; investigates citizen inquiries; conducts field inspections and develop recommendations. Performs other duties as assigned or required.

QUALIFICATIONS: This position requires an Associate Degree in Engineering Technology from a 2-year accredited college or university, with two (2) or more years of highway design/construction experience, construction layout, and familiarity with IDOT policies and procedures. Knowledge of computer software including but not limited to: Microsoft Office products, ArcMap, Total Station and AutoCAD. Applicants are required to have a valid Illinois driver's license.

Excellent benefits provided including group medical and retirement. Salary is commensurate upon experience and qualifications.
